

Kentucky Registry
Attn: Rosemary Center, General Counsel

Dear Rosemary Center,

Mar 27 12:07 PM '00

I would like to use Aristotle publishing Inc. attached is a letter of their services and they can further be contacted for additional details. I would like two formal opinions, one on their service and one that would be particular to my campaign for which you have already issued an opinion on credit card contributions.

I want to use this technology so that I will not be involved in solisitation in any form. I intend to have no formal fundraisers. I want people to go to the web site see where I stand on the issues and contribute if they wish do so at arms length. I would like a formal opinion directed to my campaign as it relates to Advisory Opinion number 95-003. I would prefer using the Aristotle system, however if I cannot, then I want to use another system set up with the bank where my account is currently. Heritage Bank, 1911 Dixie Hwy, Ft. Wright, Ky. 41011 the company I would use here is called Skipjack located in Cincinnati, Ohio and they would charge transaction fees or services charges, which would be paid by the campaign. A record would be kept of the contributor, the amount would be within the legal limits and a record would be kept on who the contributor is, where he lives, how the contribution was made, when it was made, the amount and what his occupation is and a system to prevent going over the amount allowed to be contributed. It is very important to me that any contributions which come into my campaign be at arms length, I want people to be able to go the web site www.jstephenson.com, see where I stand on the issues, and my background, or hear a speech and then decide whether or not to contribute. I consider this more important than winning. Thank you for your time and patience. John Stephenson Candiate for State Senate District 11.
